EXPRESS JS

MONGODB

## PROJECTS:

### Energy website built with ReactJS

Created a responsive Energy website to showcase personal projects using HTML, CSS, Bootstrap, Material UI and ReactJS Components. Implemented smooth scrolling and animations for a visually appealing user experience.

### To-Do-list

Designed and coded a website using ReactJS. Ensured compatibility across different devices and browsers.

### CRESCENDO/Ecommerce app

Created a full stack Ecommerce web app using **HTML, CSS, ReactJS, Bootstrap, Firebase, Context API, Redux, Axios**. Implemented smooth scrolling and animations for a visually appealing user experience.

## EXPERIENCE:

### Bootcamp Trainee

Knowledge Streams · Internship 3 month

- Trainee at Knowledge Stream boot camp, specializing in MERN Stack. Developed technical skills through projects and workshops, and improved soft skills in communication and teamwork.

**Skills learned:** Context API · Firebase · Redux.js · Tailwind CSS · CSS Grid Layout · HTML · CSS Flexbox · Git · Soft Skills Training · Teamwork · JavaScript · Node.js · React.js · GitHub

## EDUCATION
